

Pushdown Automata and Vector Addition Systems: A New Look At Two Classical Problems

Programme

Thursday, 20 January, 2011 <i>amphi Curie / Bâtiment d'Alembert -- LSV, ENS Cachan</i>		
09:30 10:00	Welcome & Coffee	
10:00 11:20	Part 1	<u>Petr Jančar</u>
	Break	<u>Decidability and complexity of DPDA Language Equivalence via 1st Order Grammars</u>
11:40 13:00	Part 2	
13:00 14:30	<u>Lunch</u>	
14:30 15:50	Part 1	<u>Jérôme Leroux</u>
	Break	<u>Vector Addition System Reachability Problem (A Short Self-Contained Proof)</u>
16:10 17:30	Part 2	
17:30	Closing	
20:00	<u>Banquet (in Paris) – see below</u>	

Banquet (starting at 20:00)

Au Moulin Vert
34bis, rue des Plantes,
75014 Paris.
T. +33 (0) 1 45 39 31 31

RER B : Denfert-Rochereau
or
Metro 4 : Alésia
