SecReT 2007

2nd International Workshop on Security and Rewriting Techniques

http://www.rdp07.org/secret.html

June 29, 2007, Paris, France A satellite event of RDP 2007

Topics of Interest

The aim of this workshop is to bring together rewriting researchers and security experts, in order to foster their interaction and develop future collaborations in this area, to provide a forum for presenting new ideas and work in progress, and to enable newcomers to learn about current activities in this area.

The workshop focuses on the use of rewriting techniques in all aspects of security. Specific topics include: authentication, encryption, access control and authorization, protocol verification, specification of policies, intrusion detection, integrity of information, control of information leakage, control of distributed and mobile code, etc.

Invited Speaker

Thomas Genet (Rennes, France)

Program Committee

Véronique Cortier (Nancy, France) Maribel Fernández (London, UK) Paliath Narendran (Albany, NY, USA) Monica Nesi (L'Aquila, Italy), co-chair Tobias Nipkow (München, Germany) Hitoshi Ohsaki (Osaka, Japan) Graham Steel (Edinburgh, UK) Mark-Oliver Stehr (Stanford, CA, USA) Ralf Treinen (Cachan, France), co-chair Luca Viganò (Verona, Italy)

Important Dates

Submissions:	Monday, April 23
Notification:	Monday, May 21
Final version due:	Friday, June 8

Submission Guidelines

Authors are invited to submit a paper (max. 10 pages) in PDF or PostScript format by April 23, 2007. Submissions should be sent by email to Monica Nesi (monica@di.univaq.it).

Authors are invited to submit a paper (max. 10 pages) in PDF/PostScript format by e-mail by April 23, 2007. Instructions will be published on the workshop webpage http://www.rdp07.org/secret.html. Preliminary proceedings will be available at the workshop. After the workshop authors will be invited to submit a full paper of their presentation. We plan to publish the accepted contributions in DMTCS.
